I am a result-oriented front-end developer with one year of experience in the field of IT. I am looking for a remote job for the position of Junior Frontend React, there is the probability of moving after some time for full-time work. In terms of character, I'm more of an extrovert.

The following is not all I've done.

1 months	<b>Pet-projects and <a href="#">freelance</a></b> Frontend Stack: JS, TS, React, Effector, Redux, Mobx. I realized that I didn't know much and I'm started studying: different patterns(for example: Feature-sliced design, Atomic design, SOLID ), Clean code(Robert Martin), Clean architecture(Robert Martin), JS complete guide 7th edition (David Flanagan). Pet-projects: <a href="#">Todo list</a> - <a href="#">github</a> - react, ts, effector.	<b>Languages</b> English A2 Russian native
